FROM THE PRINCIPAL

Dear Hillsmeade Community,

Happy Week 9. How quickly the term has flown by. I hope that everyone has had a wonderful Term 3 and that everyone is keeping warm and safe as we approach the Term 3 school holidays.

AFL Inflatables

Over the last few weeks we have had AFL inflatables visit for an exciting, outdoor AFL experience for our students. The students had an amazing time. A huge thank you to Crystal Wells for coordinating this wonderful opportunity for our students. And a big thank you Cranbourne Secondary College VET students for assisting throughout the week.

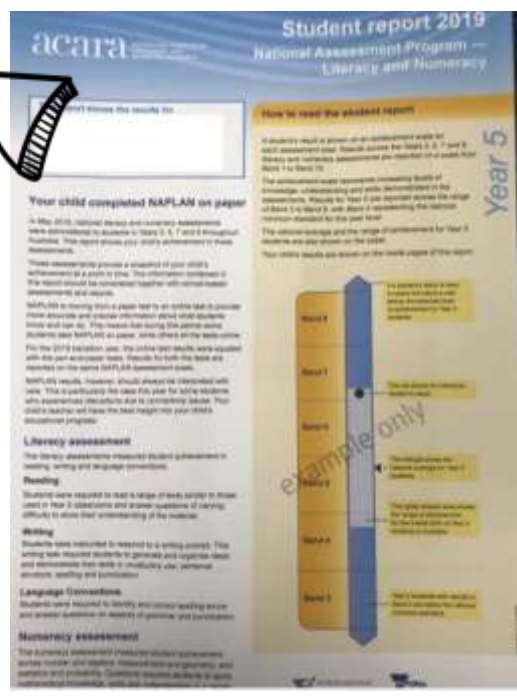

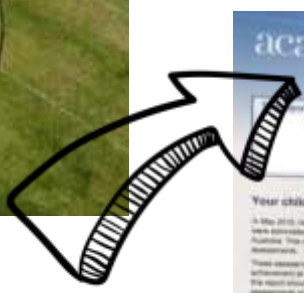

NAPLAN 2019

A reminder to parents of Year 3 and Year 5 students that 2019 NAPLAN results have arrived and can be collected from your child's teacher.

A BIG congratulations to our students who have achieved some very positive results. We continue to be proud of our students and their growth as they move from Year 3 – Year 5 – Year 7.

If you need any assistance with reading the NAPLAN report please get in touch with your child's class teacher, or attend to the office.

FROM THE PRINCIPAL

Principal for a Day

Last week we welcomed CEO Chris Buckingham of Casey-Cardinia Libraries as Principal for the day. This is an annual event in which we take part to promote the connectedness of our school across various industries and leaders. Chris commented positively on the wonderful vibe across the school as he visited classes, toured the ELC and attended a PLT meeting.

A huge thank you to our student leaders who hosted a morning tea with Chris sharing the positive things about our school. Our student leaders really did a wonderful job in promoting the school and displaying our I RESPECT values.

New Cloud Tables

Some fantastic whiteboard cloud tables are starting to be introduced into some grades. Here are some pictures from Year 2A's class and Prep A's class.

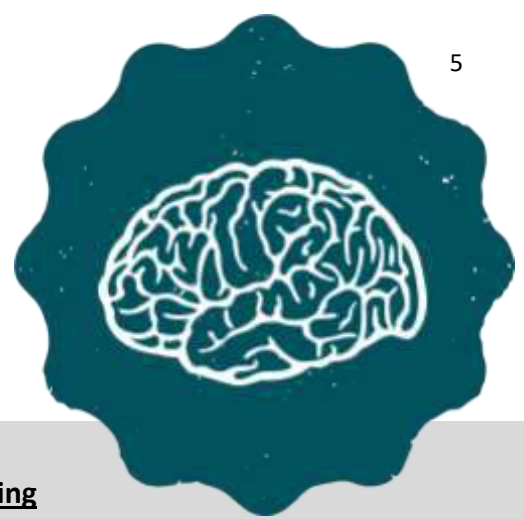

HILLSMEADE READ ALOUDS

Look out for Miss Crowe reading *"Who Sank the Boat"* and Mrs Kidd reading *"Wombat Stew"* this week on the Hillsmeade website.

FROM THE PRINCIPAL

Learning

We are always learning more about learning. As professionals, we know that it is important to utilise current research and evidence around what is best for students and young people. As the demands of the future work force become more complex and collaborative, it is important that as educators we create these rich opportunities with and for our students.

YOUNG PEOPLE NEED SKILLS AND EXPERIENCE FOR JOBS OF THE FUTURE, NOT THE PAST

Infinite Voyage

A downloadable application for children aged 8 to 12 and their families

Infinite Voyage is a colourful, story-based, character-driven application that features mathematically-based challenges. Developed by the Mathematical Association of Victoria and the Game Developers' Association of Australia (GDAA), Infinite Voyage has 15 sub-games that are aligned to the Victorian Curriculum.

Infinite Voyage takes place on Spaceship VMC, which is searching for suitable places for humankind to relocate. Designed to allow up to eight different players on one device, Infinite Voyage invites players to create customised characters for themselves and family members.

With the Mathematical Association of Victoria providing advice on the mathematical content of Infinite Voyage, the app has been designed to increase confidence in and engagement with mathematics.

See the trailer for *Infinite Voyage*

THE MATHSCOTS

An animation series for children aged 5 to 8 and their families

The Mathscots Animation Series has been designed to engage children aged 5–8 in mathematics in everyday settings. Family members are encouraged to view the 10 episodes in the series with their children to explore the big ideas of mathematics.

An information guide with discussion points and prompts for each episode is also available to parents and guardians.

KEY FEATURES

The Mathscots Animation Series has been developed purposefully to:

- support numeracy at home
- encourage numeracy conversations between family members and children
- contextualise the learning of mathematics
- build confidence in children's mathematical capabilities
- nurture children and family members' awareness of mathematical opportunities
- offer different entry points for children to access at their stage of mathematical development through the open-ended possibilities of the animation
- foster the four proficiencies, understanding, fluency, problem-solving and reasoning, and
- draw on young learners' social and physical experiences to demonstrate authentic mathematics in their everyday lives.

Parents and guardians are encouraged to explore the mathematical concepts underpinning the episodes with their children in a range of daily activities, for example; by using directional and positional language, identifying 2D shapes and 3D objects, talking about the likelihood of events, counting, using the four operations (addition, subtraction, multiplication and division), and measuring.

FROM MR CARDAMONE

Dear Hillsmeade Community,
Happy week 9! Nearly the end of the term. I hope you have been planning some quality family trips/ time over the school holidays. This term we were planning our parent workshop about online safety,

unfortunately we have had to cancel this event, due to the low numbers coming. We will have another parent workshop next year term 1. If you would like any information about online safety please let me know.

I hope the information provided the last few weeks has been helpful and insightful; please let me know if you have used any of the information to support your children.

the Carly Ryan foundation APP FACTS
CALCULATOR%

Age Rating in the App Store: **4+**

The calculator% app is an application that is designed to help the user hide photos and videos behind the applications screen.

This application appears to look like a calculator, but upon entering a passcode it opens up a private vault where files are stored securely and cannot be viewed in the iPhone or Androids default camera role.

To get files into your Private Calculator

In the app itself, you can tap the '+' sign to select Wi-Fi transfer, which gives you an IP address to type on your computer's web browser. You can also import files through your camera roll (photo's and videos).

Private Calculator can display and open a number of media types, including photo's (such as .jpeg, .gif, .bmp and .png files), videos (.mp4, .avi, .mkv, .wmv, .flv), music and audiobooks (.mp3), Microsoft Office files (.doc, .xls, .ppt), other assorted documents (.txt, .pdf) and even downloaded websites (.htm).

Concerns

Some of the concerns regarding this app are the fact that your child might potentially be hiding explicit photos, videos or other content.

If your child is under 18 years old it is illegal for them to produce or possess these types of images. It is classed as child abuse pictures.

Child abuse pictures are illegal if they are:

- asked for;
- taken;
- received and kept; or
- sent, posted or passed around

The maximum penalties for child abuse material can be up to 15 years in jail and being placed on the sex offender register. The maximum penalty for an act of indecency is 2 years in jail if the person in the picture is under 16. If the person is over 16, the maximum penalty is 18 months in jail.
(http://www.lawstuff.org.au/nsw_law/topics/Sexting/)

What can parents do to keep their kids safe on calculator% app?

- Consider deleting this app
- Remind your kids that everything is public
- Have a dialog with your kids about sexting and sending inappropriate photos to others
- Explain to your kids that they should be careful with sharing their photos with anyone, as they can be forwarded

It is important to have open honest communication with your child regarding sexting.

More App Fact Sheets available from the Carly Ryan Foundation. Please email: info@carlyryanfoundation.com

carlyryanfoundation.com

TheCarlyRyanFoundation @thecarlyryanfoundation @TeamCarlyCRF

Last week we shared some tips and hints for the app Discord, I hope this supported you with ideas to assist with this app. This week we will have a focus on the app Calculator%, although there is an age limit of 4+, there are some concerns raised with this app as mentioned below. Please find below some helpful information to support you with this. This information is from the Carly Ryan Foundation, more can be found at the below website I will leave copies at the front office.

YEAR 3 HISTORY BOX INCURSION

This term, our Year 3 students have been learning about Indigenous Australians and the First Fleet as part of our History unit, 'What Has Shaped Australia?'. Last Wednesday, 4th September, Year 3 students attended the History Box Incursion. They enjoyed listening to Cynda and Barry deliver information about our history, specifically the journey that Arthur Phillip made from England on the First Fleet with convicts, and their arrival. They also took part in making tokens, writing with a feather and ink, crushing spices and illustrating stones with Aboriginal Indigenous symbols.

CHOOKAS TO OUR DANCERS!

We would like to wish the Victorian State School Spectacular dance team good luck with their performance at the Melbourne Arena on Saturday!

HILLSMEADE SPORT REPORT

Hillsmeade Sports update, on Friday 6th September 2019, Grade 5/6 students participated in the Narre Warren District Summer Lightning Premiership.

We are so lucky to have such a supportive Principal (Jodie Bray) who allowed us to hold 3 of the 5 sports (Softball, Kickball and Basketball) at our school. There were 6 schools and over 400 students participating in our amazing school. I am so proud of our incredible students in the way they showed our IRESPECT values and welcomed our guests.

Thankfully the weather held out for us and we were able to complete in what was an amazing day.

- Our girl's basketball team played off in the final but unfortunately came across a very talented opposition in Courtenay Gardens. Our boy's basketball team tried their best winning 3 games, drawing 1 and losing 1 game. They missed out on playing in the final by only 1 point.
- The 2 softball teams also played with great skill, with the B team winning the round robin tournament.
- The 2 Kickball teams were also very competitive with the A team ending up with the runners up medal and the B team winning their tournaments.
- Our 2 mixed Volley Ball teams travelled to Narre Warren P-12 Secondary Collage and came away with 2 convincing victories.
- Our boys and girls Cricket teams also travelled to Narre P-12 and played on the new synthetic pitch. Our girls coming away with a win in the final. The boy's team was also very competitive.

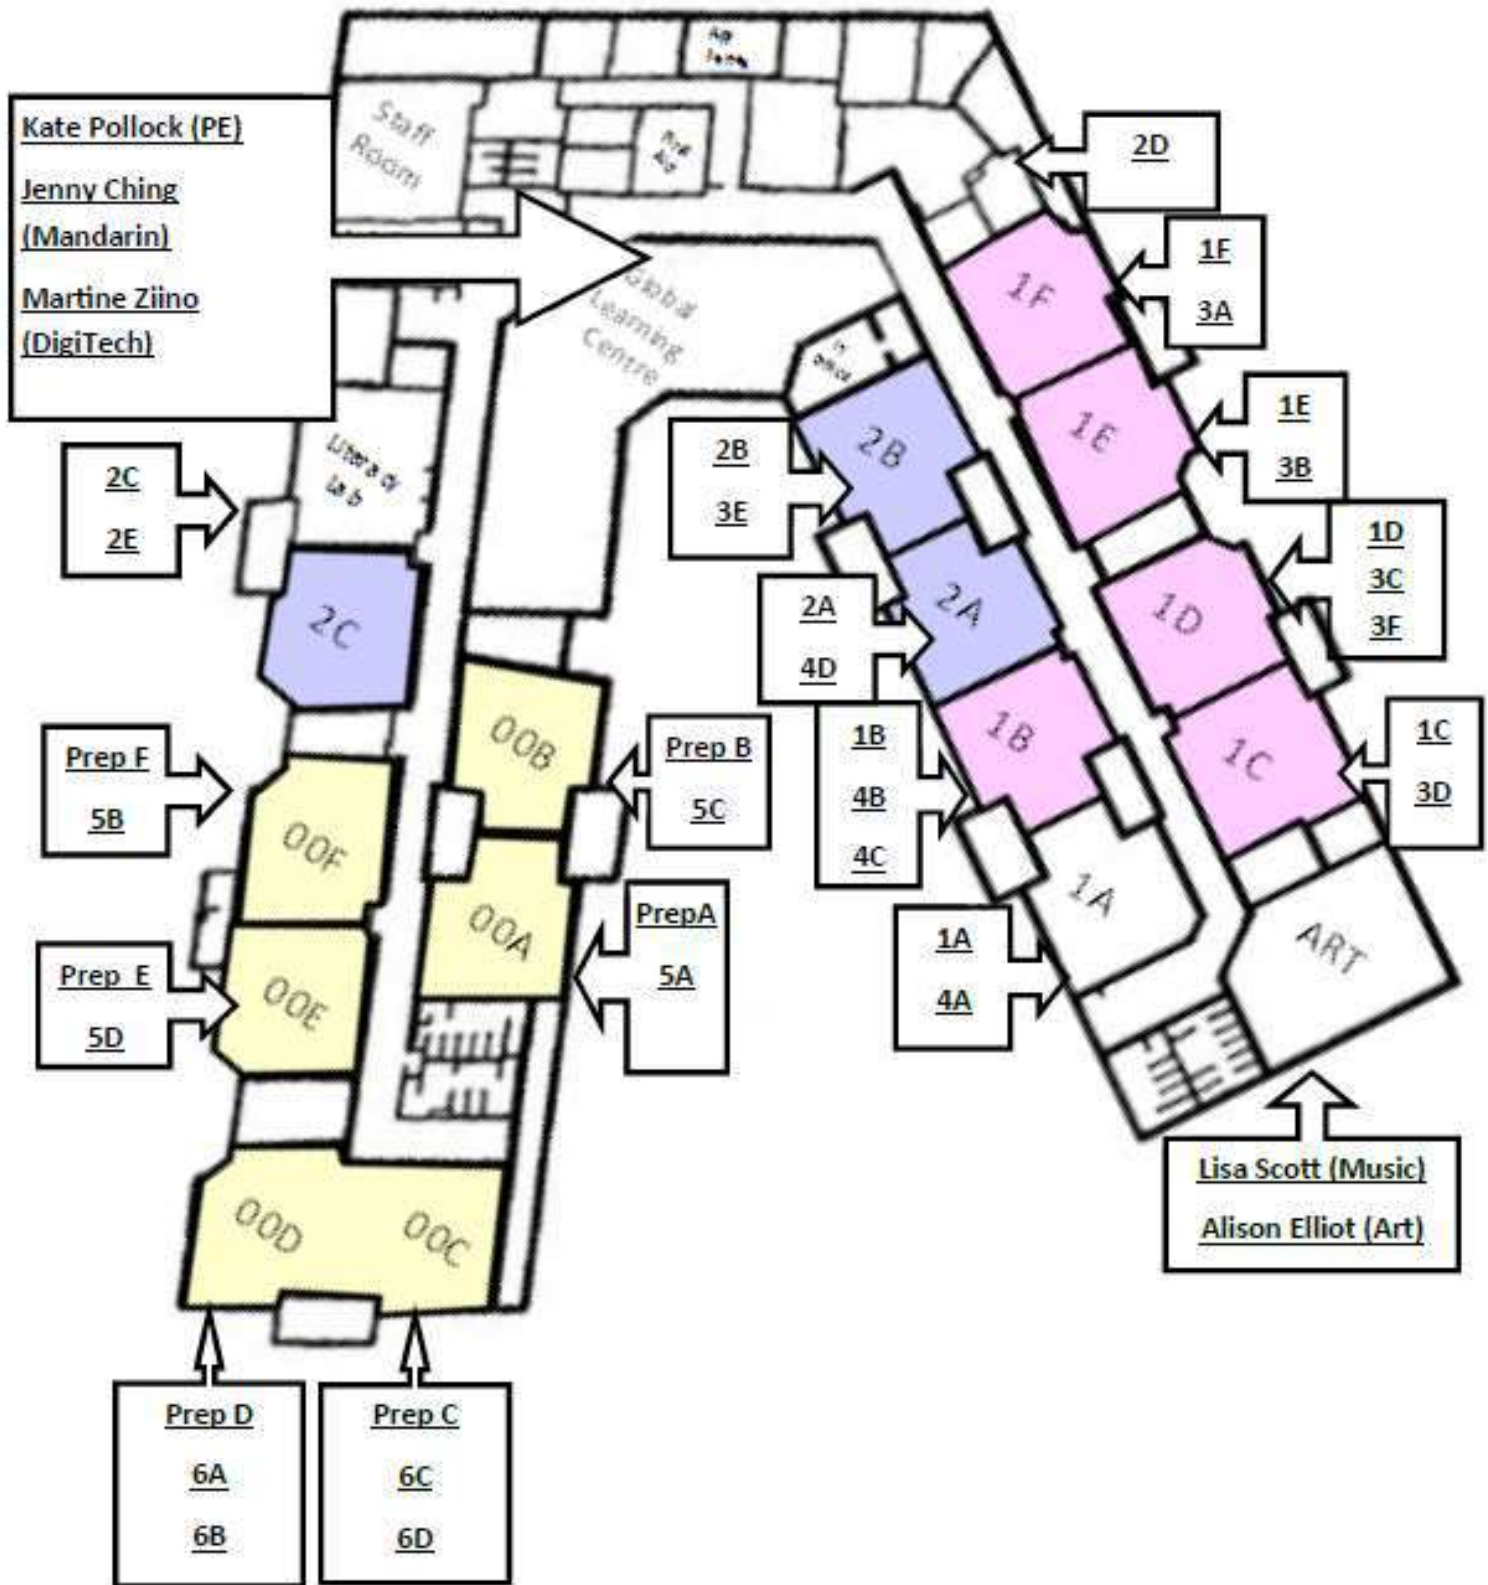

Finally I would also like to thank our senior teachers who coached our teams during the term every Friday and on the day. With their hard work and dedication they made the day enjoyable and rewarding for the students and myself. — **Mr Ahmad Chazbek**

Parent/Student/Teacher Conference
Term 3 2019 Parent/Teacher Conferences
Click here for booking

Parent/Student/Teacher Conference
Term 3 2019 Parent/Teacher Conferences - Deputy Reporting
Click here for booking

Term 3 Parent Teacher conferences are now open for booking in Compass.

When are the conferences happening?

All teachers are available for bookings on Monday, Tuesday & Wednesday September 16, 17 & 18, EXCEPT: Mrs Bhardwaj (5/E) and Ms Crowe (2/F) will be available next week on Monday Sep 9 and Wednesday Sep 11 (as they are unavailable in the final week of term). There are conference items in Compass set up for each of these teachers separate to the main conference item for all other teachers.

You can make bookings with all of your child's teachers this term, including any specialist subjects: Art, Music, Digi Tech, Mandarin and P.E.

How do I make a booking?

Compass website: if you log in to Compass you will see a green notification at the top of your news feed telling you that you have conferences available. When you open the conference there is help available on how to make bookings.

Compass app: when you open the app, tap the 3 bars in the top left corner and then tap Conferences in the side menu. You will see the conference items there available for booking.

Please contact us ASAP if you require us to book a translator - we have to organise through an agency, and the sooner we make the booking the more likely one will be available.

Please contact the office if you need assistance.

CULTURAL/RELIGIOUS CELEBRATIONS & ABSENCES

Cultural/Religious Celebrations and Absences

Here at Hillsmeade we have students that come from many different cultural and religious backgrounds. Sometimes this can mean that students are missing school to participate in different cultural or religious celebrations.

We would love it if students could still come to school and share these celebrations with their teachers and classmates. However if missing school is unavoidable, it is important that these absences are entered onto Compass correctly by selecting 'Religious/Cultural Observance' when entering the absence.

دنبهید / فرینگو ماو حاضرین و دا چشد

کهه بیائند این مجاز به تواند چر اوقات باعضو مسند برخوردار مختلف دهنید و فرینگو ماو بیستنده از کهه داریم ترانگردانیم . مسید در اینجا در نمایند حاضرین غیر چکن از دهنید یا فرینگو چنله ماو چشد در ترانکه برابر ترانگردان

ما دوست داریم اگر شاگردان هنوز هم بتوانند به مکتب بیایند و این جشن ها را با معلمین و هم صنفی های خود به اشتراک بگذارند. اما اگر غیر حاضر شدن از مکتب غیر قابل اجتناب باشد ، مهم است که با انتخاب گزینه "رعایت مذهبی / فرهنگی" هنگام ورود به غیر حاضری این غیر حاضری ها را به درستی به Compass وارد کنید.

REMINDER: Lost property is very full! Any named items have been given to classroom teachers. There are many unnamed winter jackets and coats in lost property at the front office.

The Size Of Our Solar System

On the 1st and 5th September 2019 the Year Fives had an incursion based on our Solar System! Our class had the incursion on the 5th of September along with 5D and 5C. Our facilitator was called Mark, he taught us more about our Solar System.

The first activity we accomplished was all about us understanding how immense our sun is (in its diameter) by comparing it with all the other planets in our gigantic solar system. An example is we had a picture of a Uranus and it went from one part of the "sun" to the other. We repeated it until we got to the other side of the sun", it took us 27 ¼ repetitions before we did.

The second activity we overtook was all about, the distances from each planet (in our solar system) to the sun. This helped us figure how far apart we really are from the sun, along with how far the other planets are too (especially Neptune) it is, 500 million kilometres away from the sun). It also helped us find out how long it takes each planet to orbit around the sun. For instance did you know that it takes 165 years for Neptune to do a full orbit around our largest star in our solar system, the sun?

The last and final activity we succeeded at was, mainly about the speed of each planet. To learn more about this we had some of our class mates to act as planets each planet was given a time when they were allowed to move depending on how far away they were from the sun. the rest of the class would clap each second "Mars" was allowed to orbit 1 step every 2 seconds we clapped repeatedly until we reached 40 claps and in total "mars" took 20 steps completed 2 full orbits around the sun. At the end of the day we all had an extravagant time, this marvellous incursion helped us grow on our existing knowledge of our colossal solar system. *Mahdiah 5E*

Throughout the Science Incursion, Year 5 students enjoyed learning about the Solar System. Students enjoyed learning about the Solar System and doing activities to understand the concepts of the Solar System such as spacing of the planets and the sun. The students made foldable books and recorded what they found out. Students and teachers appreciated the incursion. *Eshjot 5E*

Fight Cancer™

**FOOTY
COLOURS
DAY!**

WE'RE WEARING OUR
FOOTY COLOURS

TO SUPPORT
KIDS WITH CANCER
IN 2019!

Come to school dressed in your team colours!

Friday 20th September

What is Footy Colours Day?

Fight Cancer Foundation's Footy Colours Day is a national fundraising campaign supporting kids living with cancer.

Where does the money go?

Every dollar raised helps kids with cancer to continue learning during treatment and recovery through Fight Cancer Foundation's education support programs.

Fight Cancer Foundation™
giving hope. saving lives.
